Dr Steve Peters will give an in depth lecture on the structure and functions of the equine brain and how it relates to training and learning. There will also be a dissection of an equine brain and you will get an opportunity to examine (if you wish) the major structures of this amazing organ.

Sunday 18th June 2023 - 9.00am – 4.00pm Lectures and Practical demonstration through Ridden and Groundwork exercises.

This builds on what will have been covered the previous day with live demos in real time of the learning and processing the horse uses in day to day training.
